1 August 2012

APPOINTMENT OF ADDITIONAL DIRECTOR

PaperlinX today announces the appointment of **Andrew Price** as a non-executive Director of the Company, effective 1 September 2012.

Commenting on the appointment, **PaperlinX Chairman, Harry Boon** said:
"In the period since the EGM in March, Andrew and I have had discussions about his potential contribution to returning the business to profitability. Following the recent completion of the Strategic Review, and our announcements of the sale of assets and the repayment and restructuring of some debt, the time is now right for Andrew to join the Board in the next phase of implementing the ongoing restructure program."

"Andrew has 30 years experience in the paper, print and supply chain fulfilment industries. He established Stream Solutions which provided the Australian print industry with an internet-based order fulfilment capability to enhance supply chain efficiencies, and brings the perspective of a Print buyer who understands the changing demands of the Paper industry."

Andrew Price said:
"Having spent recent weeks in Europe reviewing several of the key operations of the Company, I am pleased to be joining the Board on 1 September. I look forward to making a significant contribution to the current restructuring of the scaled-down business which should lead to a return to profitability through lower costs, more efficient order to fulfilment processes and a diversified product range."
